Ruffin Road/Murphy Canyon Road Bicycle Project

Project Background

The City of San Diego is known for its commitment to being a bike-friendly place for residents and tourists. The City is committed to making the roadway a safer place for bicyclists as demonstrated through the *Lose the Roaditude* Campaign that strives to foster respect among cyclists, motorists and pedestrians and encourage them to share the road safely. This proposed project will install 3.25 miles of Class II (bike lane) on Ruffin Road from Kearny Villa Road to Murphy Canyon Road and will make the road safer for bicyclists to share.

Project Overview

This proposed project will upgrade the existing Class III (bike route) facility on Ruffin Road between Kearny Villa Road and Aero Drive. There will be minimal impact due to the removal of some of the on-street parking to accommodate the new bike lane. The City field review has determined that there is ample off-street parking on adjacent sites.

Schedule

The work is tentatively scheduled to begin in August 2011.

Cost

The Ruffin Road Bikeway project is funded mostly through a grant from the California Department of Transportation (Caltrans). The grant total which will include design and construction is \$156,475. The construction efforts will be a joint venture between city forces who will stripe the Class II bicycle facility and an outside contractor who will install bicycle loops.

"Working together to engineer a better tomorrow."
